

Supplemental Medical Benefits

Medical insurance does not prevent all of the financial strain of a major illness or injury. Many families don't have enough in their savings to cover the deductible and coinsurance of a major medical event. Supplemental medical benefits can help cover this out-of-pocket financial exposure for a reasonable cost.

Have you ever known someone who was diagnosed with a critical illness, experienced an accident, or was hospitalized? Events like these happen unexpectedly. Don't go another day unprotected. Enroll in your supplemental medical plans and be prepared for whatever tomorrow brings. *

The benefits are paid directly to you, allowing you to use the funds however you choose. You receive the benefit even if you have other insurance. **Please note: These plans are not replacements for medical insurance.**

Critical Illness Insurance

You can protect yourself from the unexpected costs of a serious illness.

Even the most generous medical plan does not cover all of the expenses of a serious medical condition like a heart attack or cancer. Critical Illness Insurance pays a lump sum benefit directly to you if you are diagnosed with a covered illness that meets the plan criteria. The benefit is paid in addition to any other insurance coverage you may have.

Covered Illnesses include (but not limited to):

- Heart Attack
- Stroke
- Cancer
- Major Organ Transplant
- End Stage Renal (Kidney) Failure

Plan Features

Guaranteed Acceptance: There are no health questions or physical exams required to enroll.

Family Coverage: You can elect to cover your spouse and children.

Portable Coverage: You can take your policy with you if you change jobs or retire.

Health Screening Benefit

If applicable, the plan provides a benefit per covered person per calendar year if you or your covered dependents complete a covered health screening such as a physical exam, total cholesterol blood test, mammogram, lipid panel, and more.

How Critical Illness Insurance Works

When Sam had a stroke, he was grateful the doctors were able to stabilize his condition, but he learned there was some permanent damage to his vision. He began to see his out-of-pocket costs adding up quickly. The good news is he received a lump sum payment of \$10,000 from the Critical Illness coverage he elected at Open Enrollment to help cover these expenses.

* The policies/certificates of coverage have exclusions and limitations which may affect any benefits payable. The policies/certificates of coverage or their provisions, as well as covered illnesses, may vary or be unavailable in some states for supplemental medical benefits.
